
MODULE 4 - INCIDENT FACILITIES TEST

1. List six facilities which can be established to support incident operations.

2. Designate the appropriate facility for the purposes listed below.

- _____ Primary location for Logistics functions
- _____ Location for Incident Commander
- _____ Temporary location for available resources
- _____ Location for helicopter refueling
- _____ Temporary locations for sleeping and meals
- _____ Location for Planning/Intelligence functions
- _____ Temporary location to load/unload helicopters.

3. List those incident facilities which may be established in multiple numbers (more than one) and/or locations at the same time on a single incident.

4. When possible, the Incident Command Post should be located:

- _____ Outside the present and potential hazard zone
- _____ In a vehicle
- _____ With the largest agency on multi-agency incidents
- _____ Located with the Incident Base
- _____ All of the above.

5. The Incident Command Post can be collocated with other facilities.

- ☐ True
- ☐ False

6. On multi-jurisdictional incidents there should be a separate command post for each jurisdiction or agency.

- ☐ True
- ☐ False

7. Incident Command Posts will be designated by:

- ☐ An assigned number
- ☐ The name of the incident
- ☐ Name of a nearby location.

8. From the list, select desirable characteristics of a Staging Area. (check all that apply)

- ☐ Outside the hard effects zone
- ☐ Enough space for meals and sleeping
- ☐ Within 3-5 minutes of tactical assignment
- ☐ Within view of the incident
- ☐ Can be relocated
- ☐ Contains repair facilities
- ☐ Has different access routes for incoming and outgoing resources
- ☐ Adjacent to the Incident Command Post.

9. An Incident may have more than one Staging Area.

- ☐ True
- ☐ False
- ☐ Only if over five divisions

10. All resources in a Staging Area must be in what status condition?

11. All Staging Areas will have a designated Staging Area Manager.

_____ True

_____ False

12. Helispots may not be collocated with other incident facilities.

_____ True

_____ False

13. Which ICS Section can be found primarily at the Base?

14. In a fully expanded ICS organization, the Base Manager will report to the:

15. Camps are only authorized for use on wildland fire incidents.

_____ True

_____ False

16. Camps can be designated by a geographic name or by a number.

_____ True

_____ False

17. Camp Managers will report to:

_____ Ground Support Unit Leader

_____ Base Manager

_____ Facilities Unit Leader

_____ None of the above

18. A Helibase can be located at the incident, at a nearby airport, or another off-incident location.

- _____ True
- _____ False

19. An Incident may have more than one Helibase.

- _____ True
- _____ False

20. In a fully activated ICS organization, the Helibase Manager will report to the:

21. Helispots can perform all of the same functions done at the Helibase.

- _____ True
- _____ False

22. All incidents should have:

- _____ One or more Staging Areas
- _____ One or more Helispots
- _____ An Incident Command Post
- _____ A Base or Helibase
- _____ None of the above

23. Name four incident facilities that can be collocated with a Staging Area.

24. In a fully activated ICS organization, the Helispot Manager will report to the:

- _____ Air Support Group Supervisor
- _____ Facilities Unit Leader
- _____ Helibase Manager
- _____ Ground Support Unit Leader

25. Camps may be collocated with:

26. Helibases must always be located at an FAA designated airport.

- ☐ True
- ☐ False

27. Resources in a Staging Area should meet the following criteria. (check all that apply)

- ☐ Of the same kind and type
- ☐ Available for assignment
- ☐ Have an Agency Representative
- ☐ Grouped in strike teams, task forces, squads or mobile field forces
- ☐ Fully equipped.

28. Draw in the appropriate map symbol for each incident facility.
